Golf is the business. *Cádiz is the multiplier.*

Patiño Resorts Arcos and Valderrama Investments SA aim to revive the Arcos Gardens resort and make it one of Europe's very best, with the golf course as the driving force of its recovery and success.

THE ENGINE · GOLF

A "must play" course

Restore and noticeably upgrade an 18-hole Landmark course, redesigned by Kyle Phillips, so it becomes a true source of revenue and a top-tier tourist product.

THE STAY · HOSPITALITY

Cortijo, villas and a 5★ hotel plot

An early 20th-century cortijo with ten rooms, villas on the estate and a 28,847 m² plot for a brand-new five-star hotel.

THE VALUE · RESIDENTIAL

Up to 412 homes

64,259 m² of residential floor space, with around 80% of the roads and infrastructure already built.

OLD OLIVE TREES ON THE ESTATE

The people behind one of Europe's very best

For more than 20 years, Mr Felipe Ortiz-Patiño, together with his father Mr Jaime Ortiz-Patiño, was one of the main driving forces behind the creation of Valderrama, leading it to be ranked number one in Continental Europe and to host the world's most prestigious golf events since 1988.

MANAGEMENT

Mr Felipe Ortiz-Patiño, former Vice President and President of Valderrama Golf Club.

OFFICIAL CONSULTANT

Valderrama Investments SA, a company owned by Mr Felipe Ortiz-Patiño.

This project will directly and indirectly combine the names Patiño and Valderrama.

THE COURSE

03 THE CORE ASSET · THE COURSE

A Landmark course with championship credentials

Arcos Gardens, a resort and golf course designed by the American company Landmark, was chosen because of the quality and the design of its course, which allows it, with adjustments and upgrades, to become one of Europe's very best and act as the driving force in the recovery and success of the resort.

HOLES · CHRIS COLE AND JEFF POTTS (LANDMARK)

No. 88

TOP 100 · CONTINENTAL EUROPE, 2015

2010–2015

ONE OF SPAIN'S BEST COURSES

CHAMPIONSHIP

The only championship course in the Sierra de Cádiz, with wide, rolling fairways that follow the natural relief of the land and views over the lake.

PRACTICE

Driving range, pitching and bunker area, two putting greens and three chipping greens. Buggies and clubhouse on site.

Yet it was never a "must play" course, and never became a tourist attraction in the way Sotogrande or Valderrama did. That is the gap the project closes.

From No. 88 to the top 30 in Continental Europe

01

Not only restore but noticeably upgrade the existing course so it can become a true source of revenue and a top-tier tourist product.

02

Equal the quality benchmark set by Valderrama in service and maintenance, and create one of Europe's most coveted and prestigious clubs and destinations.

2015

No. 88

Top 100 golf courses in Continental Europe.

REDESIGN

Kyle Phillips

The world-renowned architect selected to redesign and upgrade the course.

STANDARD

Valderrama

A substantial increase in the quality of maintenance and service.

OBJECTIVE

Top 30

Among the very best in Spain, a "must play" course and a venue for major professional events, like nearby Valderrama.

With the prestige and expertise of the new ownership and that of Kyle Phillips, this objective is more than achievable.

The place itself

A clubhouse opening straight onto the course, whitewashed architecture and old olive trees. *The resort already exists: the project brings the investment, the standard and the name.*

04 HOSPITALITY · THE CORTIJO

An Andalusian cortijo at the heart of the resort

Early 20th century, on 19th-century foundations

The building, which was operated as a small hotel, comprises ten rooms, a restaurant, lounges, a patio, two terraces, a swimming pool and sports facilities. The use of existing homes and villas adds 5–10 rooms beyond those of the cortijo itself, and its large gardens offer excellent conditions for hosting social events.

iv Spa and wellness, in a newly built facility

v Lake and seaside activities, on the shore of Lake Arcos and later at one of the nearby beaches of Sanlúcar, Rota, Chipiona or El Puerto de Santa María

05 RESIDENTIAL AND HOTEL

The revival of golf brings the real estate back to life

The vision of recovering and repositioning the resort is not limited to golf and hospitality: it also embraces the entire residential development. The revival of tourism and sport is what will bring its real estate back to life.

The infrastructure is of the highest quality and provides all services, and the homes already built are fully in keeping with the repositioning and rebranding of the resort. The hotel plot opens the way to a brand-new five-star hotel and, if so decided, an extension to the cortijo with a wellbeing, relaxation and spa unit.

ARRIVAL

Between three worlds

The Atlantic coast, the Cádiz countryside and the mountains. The province has been classified by The New York Times as one of the 52 most attractive destinations in the world.

Arcos, a town of 31,267 inhabitants (in 2025), was first a Roman post, “Colonia Arcensis”, later a Moorish fortified town, “Medina Ar-Kosch”, and finally, from 1250 onwards, a Spanish town. It is considered one of Spain’s most beautiful and picturesque towns.

01 Within 30 minutes, **the Sierra de Cádiz**, with the route of the “Pueblos Blancos”.

02 **Arcos Lake**, a reservoir of over 100 hectares: water skiing, wakeboarding, kayaking and other water sports.

03 **Jerez de la Frontera**, internationally known for its horses, its wineries and its gastronomy.

04 **Sanlúcar, Rota, Chipiona and El Puerto de Santa María**, with clear sand beaches along the Atlantic.

05 **Cádiz**, founded by the Phoenicians, provincial capital, with a first-class cruise port.

06 **Seville**, one of the most historically rich cities in Europe.

07 **The Jerez Speed Circuit**, 25 km: 7 Formula 1 Grands Prix from 1986 to 1997 and the Spanish MotoGP since 1987. A racing academy will be created for residents and clients.

08 **The San Roque–Alcaidesa region**, 115 km, with its five-star hotels and its mythical courses, Valderrama and Sotogrande.

09 **Aponiente** (3 Michelin stars) and **Lú** (2 Michelin stars), 47 and 32 km away respectively.

10 **Marbella**, less than two hours via the A-381 or via Ronda.

11 **Natural parks**: Los Alcornocales (less than 30 km), the Sierra de Grazalema (38 km) and Doñana.

12 **Many wineries** within 50 km, including Bodegas Tesalia and Campestral, both less than 5 km from the resort.

ARCOS DE LA FRONTERA

06 TRANSPORT AND ACCESS

An extremely well-connected town

Arcos can be accessed by motorway from Seville (AP-4), Jerez (A-382), Cádiz and the Atlantic coast (AP-4), and the Costa del Sol, Marbella and Sotogrande (A-381). From the Sierra, access is available from Ronda and from Campillos (Málaga).

Jerez has a major railway station, with numerous connections to Madrid. The Alvia high-speed trains put the capital 3 hours 50 minutes from Jerez.

A BROADER MARKET

Arcos Golf by Patiño Resorts should not compete exclusively with other golf resorts. Its competitive advantage is broader.

LONGER STAYS

A guest can spend fourteen days here without repeating the same experience.

THE PROPOSAL · THE ARCOS GOLF CONCIERGE

Not simply to recommend these places, but to curate them. Each experience can include private transport, reservations, guides and selected restaurants.

Arcos de la Frontera & its lake

Your Andalusian home

Some experiences require no day trip at all.

Arcos rises dramatically above the River Guadalete: white houses, narrow streets, the Plaza del Cabildo, the Ducal Castle and the Basilica of Santa María. Below the town, the lake adds kayaking, paddle sports, birdwatching, walking and sunsets.
